VISION

To be the world-class leader for the integrated development of technical education and training systems catering to the changing needs while achieving the highest level of client satisfaction, quality, professional values and contributing to the technological, economic and social development of the country.

MISSION

NITTTR Bhopal will act as a centre of excellence to:

- Intensify teacher education for improving the quality and performance of technical institutions.
- Make technical education a vibrant learning system for producing competent manpower to steer technological and economic development.
- Provide a wide spectrum of client-driven services and products through various modes.
- Strengthen networking and synergic partnership with technical institutions, industries, field agencies, and premier national and international organizations.
- Promote creativity, innovations, research and development, professional management practices, concept of learning organization, benchmarking and economics of education amongst client systems.
- Enthuse the spirit of professionalism, values and work ethics, networking and partnership with industry and other organizations and technical institutions.

Message from The Director

The National Institute of Technical Teachers' Training and Research (NITTTR), Bhopal, was established in 1965. Since its inception, NITTTR Bhopal has been dedicated to driving progress in technical education through impactful training programmes, extensive research initiatives, and diverse developmental activities. Recognizing the tireless efforts of the institution NITTTR, Bhopal has been granted deemed-to-be-university status under the 'Distinct' category. This designation, conferred by the Ministry of Education through notification no. 9/5/2020-U.3(A) dated February 22, 2024, enables NITTTR Bhopal to offer undergraduate, postgraduate, post-diploma and doctoral programmes alongside its established training initiatives.

The institute's 2025-26 training programme calendar reflects a strong commitment to transformative educational practices through the training programmes that are strategically aligned with significant Government of India schemes, such as the National Education Policy 2020, Viksit Bharat@2047, and PM Gati Shakti. Apart from these it includes training programmes on Pedagogy, Outcome-Based Education, Indian Knowledge Systems (IKS), Universal Human Values (UHV), and cutting-edge technological developments, including AI, ML, Drone Technology, AR-VR and Digital Twin, thereby bridging traditional knowledge with contemporary educational needs.

Experiential learning remains at the core of NITTTR, Bhopal educational and training philosophy. This is visible through training programmes offered by NITTTR, Bhopal Centre for Experiential Learning, IDEA Lab, Centre of Excellence OSAT/ATMP, and NITTTR-Siemens Centre of Excellence (CoE). These programmes are now bridging the gap between theoretical knowledge and practical applications, ensuring that our educators and professionals are well-equipped to meet the evolving demands of the technical education sector. More information about these can be obtained from our Institutes website.

Apart from the training programmes, the institute has consistently focused on addressing real-world challenges through targeted institutional and social researches. Accordingly, training programmes on research methodologies, research tools, multidisciplinary research etc. have been included. The institute commitment in the area of research is also reflected through 41 Ph.D scholars who are working on live problems to develop innovative solutions that have tangible impacts on communities and professional landscapes.

A total of 326 training programmes have been included in this calendar. These programmes will be conducted by NITTTR, Bhopal along with its extension centres at Chhattisgarh, Goa, Gujarat and Maharashtra. The training programmes have been designed following NEP-2020 guidelines encompassing 50 hours of intensive and learner-centred experiences. NITTTR Bhopal also provides tailor-made demand specific chargeable programmes based on mutually agreed proposals.

Apart from the regular calendar programmes, given here, the institute is also offering programmes on Massive Open Online Courses (MOOCs) in the area of technical teacher education, sponsored by MoE, through SWAYAM Platform. From 2025 onwards, NITTTR, Bhopal is also offering MOOCs in technical teacher education and 10 emerging areas viz Green Energy Technology, Electric Vehicle: Technologies and Trends, Digital CMOS IC Design, Drone Technology, Fundamentals of Augmented and Virtual Reality (AR & VR), Additive Manufacturing and its Applications, Fundamentals of Wireless Communication Standards: Basics to 5G, Machine Learning, Advanced Manufacturing Process and Optimization Methods and Simulation for Engineers through e-prashikshan (NITTTR, Bhopal LMS).

NITTTR, Bhopal has initiated the process of assessment and creditization of one-year apprenticeship offered by the GOI through Ministry of Education and Board of Apprentices and Training under NATS 2.0. For this a meta framework of outcomes applicable across the industry, is being used for assessment and creditization of apprenticeship aligned with NCrf and NHEQF for awarding credit. The system comprises a digital curriculum, learning portfolios, and an assessment rating scale. The complete system of assessment and certification is done on e-prashikshan. One cycle of the creditization is completed successfully in November 2024.

As we move ahead, NITTTR Bhopal remains committed to its mission of empowering educators, driving innovation, and contributing to the broader goal of nation-building through transformative education.

I extend my sincere wishes for an enriching future with valuable learning experiences and fulfilling endeavors.

Dr. Chandra Charu Tripathi

Overview of Training Programmes

*"The institute's 2025-26 training calendar offers diverse initiatives encompassing **326** programmes. It focuses on national priorities with **20** NEP-2020 programmes, **5** Viksit Bharat@2047 Initiatives, and **5** PM Gati Shakti programmes. Capacity building is addressed through **10** collaborative programmes, **40** Industry aligned training programmes in Emerging Areas, and **20** Outcome-Based Education programmes, **26** Induction Training, and **6** Advanced Pedagogy and Core Teaching Skills programmes. State-specific needs are met with **97** Department Specific programmes, **3** Chhattisgarh, **18** Goa, **29** Gujarat, **14** Maharashtra, **13** Central University Rajasthan and **3** North East State dedicated programmes. Faculty and staff development are ensured through **10** Support Staff Trainings, and **7** Hindi Workshops. Additionally, the institute's Learning Management System (LMS) - **e-Prashikshan** facilitates wider access through blended learning and diverse course offerings. This comprehensive plan fosters the institute's growth while addressing national priorities and individual development needs."*
